

MAGNETIC TRACK LIGHT

MGT TL2008-18

Power	18W/m LED
Optics	15°
Dimensions	15mmx845mmx25mm
Lumen	1800lm
Ingress Protection	IP44
Color Consistency	SDCM<3
Pf	0.9
Input Voltage	AC220-240V 50/60Hz
Operating Temp.	-20°C~65°C

The magnetic linear lights also called magnetic linear floodlights, it is a wide distribution of 120° beam angle to be general lighting in large spaces. Magnetic Track Lighting is the most common and most popular led source in the magnetic track lighting system. Because its wide lighting view and soft light. Therefore led flood lights are often the general lighting equipped in the large area, such as living room, meeting room or office.

Dimensions: 15mmx845mmx25mm

Material: Made in die cast aluminium.

Finish: Black.

Diffuser: PMMA Polycarbonate diffuser.

Lifetime working : 50,000 working hours.

Power: 18W/m LED

Color Rendering Index: CRI>90
